EXPERIENCE

January 2024 – May 2024

Graphic

Intern

As a Backend Developer Intern at a graphic startup, I developed and operated a comic service in an SNS format. My responsibilities included implementing log data migration processes, optimizing Lambda image upload logic, and developing APIs for statistics and user management. I focused on writing clean, maintainable code and comprehensive unit tests, ensuring stable production services through versioning. Additionally, I optimized database queries, applied the CQRS pattern to separate read and write operations, and developed a notification system using EventPublisher and Firebase. My work significantly improved system performance, data consistency, and operational efficiency. Skills utilized include Java, SpringBoot, JWT, Redis, Whatap, CloudWatch, MongoDB, S3, Glacier, and various collaboration tools.

June 2023 – August 2023

KakaoBrain

Intern

As a Backend Developer Intern at Kakao Brain, I contributed to the Language Model Business Unit's Pathfinder TF by proposing and validating service ideas using LLMs, focusing on MVP development, experimental design, deployment, and feedback incorporation. My key achievements included optimizing GPT communication through asynchronous handling and parallel processing, reducing API request times by up to 87.5%. I also implemented prompt tuning and embedding to prevent over-scoring, researched sparse matrices for storage efficiency, and developed both API (Java, SpringBoot) and AI (Python, FastAPI) servers. I utilized skills in Java, SpringBoot, JWT, Redis, Python, FastAPI, GCP, and database management with MySQL and PostgreSQL.

2021 - 2022

Caremile, Itoxi

International Sales & Logistic Manager

Worked as a international sales and logistic manager. My main responsibilities also include analyzing and identifying the best strategy and solution for international sales and logistics for the company.

2013 - 2013

Samsung Engineering

Intern

Worked as a intern in the department of PG division of Samsung Engineering. My main responsibilities were to manage and communicate with client(Saudi Aramco)'s employees by thoroughly understanding the context of the project and the client's needs.

EDUCATION

2011-2019

Sejong University, Seoul, South Korea

Bachelor of Business Management

2008-2010

KyungKi High School, Seoul, South Korea

2003-2008

Overseas Family School, Singapore

EXTRA CURRICULAR ACTIVITIES

2022.09 - 2023.04

FastCampus - BackEnd Developer

I have studied mainly Java, Spring Framework, and CS, and additionally conducting CS presentations and algorithm group studies. With a collaborative projects partnership with a company including UXUI, Front-End, I have implemented ChatGPT and other latest techs in my project. I have also worked on personal projects using tools such as Selenium and JavaCV.

2017 - 2017

SCV - Social, Culture, Variety

Bicycle Club Leader

As a member of organization and a leader of subgroup, bicycle club, I was responsible for organizing and managing the club's activities and events including basic educations needed for bicycle riding, bicycle riding tours, and bicycle maintenance.

2013 - 2015

BoonTour - Global College Student Union Volunteering Activities

Vice President

Serving as Vice President of BoonTour and also head of External Relations Team, I was responsible for managing the organization's overall activities as well as coordinating the organization's external partnerships with both national and international organizations.

2013

Model United Nations Seoul Summit (MUN)

Representative of Cuba in General Assembly

As a delegate of Cuba, I was responsible for representing the country's interests and policies in the United Nations General Assembly and to negotiate with other countries to achieve the best possible outcome for the country regarding topics related to R2P, Health, Immigration.

2012-2012

Semi-con exhibition translator

Part-time job

As a part-time worker, I was responsible for translating and interpreting the exhibition's information and documents from English to Korean and vice versa.
