

Letter of recommendation

March 16th 2022.

To whom it may concern,

With regard to WonJoon's request, I am writing this recommendation letter. He has discussed with me regarding his desire to pursue graduate studies. His decision and strong will to learn is praiseworthy and it has driven me to write this letter. We believe that his decision to leave Caremile and to study will allow him to fulfill his dream.

I have worked with WonJoon for a year. His talent in managing logistics and supporting co-workers are unparalleled. His delivery of work has consistently improved throughout this time at Caremile. He is consistently looking to develop his skills and diligently scouting for new tasks that will improve him and the company. Many of his co-workers including the CEO has benefited from his work ethic and deliverables.

I am confident that WonJoon will grow from your program and will provide positive atmosphere and bring insightful ideas to the program.

Sincerely

DongKyu Jin
